Dear Kermit;

It was a pleasure to receive your letter of November 21 regarding your excellent reception in Eastern Pennsylvania, of our station WYLF out of Penn Yan, New York.

The log of Sunday November 20th that you transcribed to me in your letter of our transmission programming is accurate.

Thank you so much for your response. Our power was increased to 1,000 watts just about one month ago. It is rewarding to find our signal's strength and reach.

I'm also gratified that you "enjoyed" our program of original hits.

Thank you for writing.

Sincerely,

Kim Bennett
General Manager
